

1

Uniswap v2 - Pool

Add Liquidity

Input  ETH

Input  AMPL

Supply

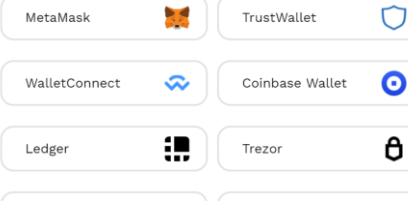

2

kGeysers - Zeus

Connect your wallet

Stake!

Receive kMPL!

Detailed Guide:

Visit the [Uniswap Pool](#) App and click on the 'Add Liquidity' button.
Select ETH as the first input and AMPL as the second input
Enter the amount of ETH/AMPL you'd like to add liquidity for and click 'Supply'.
You will receive a UNI-V2 token in your wallet once the transaction is complete
Head over to the [kGeyser](#) site and click on 'Connect your wallet' and use the wallet you'd like to connect.
Select the amount of the UNI-V2 token you'd like to stake on the kGeyser and hit 'Stake'
Congratulations! You'll start earning kMPL as a reward.
